HOT TUB REGISTRATION

As part of the Trail West Association water augmentation with Upper Arkansas Water Control District (effective November 2018), hot tub usage is now considered a special water use and subject to special requirements for those owners choosing to install them.

All homes currently containing, or homes providing a new hot tub installation, must pay a onetime registration fee of \$200 to cover the water augmentation cost for this use. (This fee covers all future use at the address.) Additionally, registered homes will be assessed an additional \$10 assessment fee to cover the purchase of the water from UAWCD under a separate line item from regular indoor and outdoor usage.
